DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 recites the limitation "each of said vias" in line 7. There is insufficient antecedent basis for this limitation in the claim.

Claims 1 – 16 are pending.

Allowable Subject Matter

Claims 2 – 16 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The prior art does not teach or suggest the recited ball grid array with a substrate having a core of solderable metal within apertures extending through a minimum of one third of the substrate thickness and in contact with the solder ball.
